Title of Change: October 2002 Baseline Update #1

COTS Baseline Updates:

1. Add path for QFS: /opt/LSCsamfs
2. Add path for RDAC: /var/sadm/pkg/RDAC
3. Add path for JNI: /opt/JNIC
4. Identify all SANergy client and server installations as SANergy. Difference in Client/Server cannot be detected by audit. Function will be added to clarify this difference. Path for Sun should be changed to /usr/opt. Remove duplicate entries where redlined. Add SANergy Server function to all x0sas01 hosts.
5. Remove Gigabit Ethernet Driver from the baseline of all x0sas01 hosts, as this driver is delivered to all Solaris 8 hosts and therefore should not be baselined separately from the OS.
6. Add Secure Shell Comm. Client 2.4.0 and Client 1.3.7 to the baseline of e0sas01. It is currently installed.

System Administrator Updates:
1. Upgrade Legato version on p0sas01 to baseline version 6.0.2Build215.

CM01AJA00 Revised 8/2/02   *ECS*
